

# Catering

**Wyton Events & Catering** can offer a wide range of catering options to suit any social or corporate function; from cocktail parties with creative canapés, elaborate sit down dinners at home, Weddings, brunches or innovative barbecues.

**Wyton Events and Catering** provides a range of catering packages, which are individually tailored to you and your budget.

## Weddings

We have three options when deciding on the style of food for your Wedding; Finger food ? Stand up, Platters Menu ? Sit down & Set Menu ? Sit down

## Finger food Stand up

The Finger food menu consists of substantial finger food - 3 small Finger Food, 3 medium size Finger Food and 3 main course Finger Food. Although this is Finger food guests are offered enough food as if this were a meal.

## Platters Menu Sit down

Main course Platters style menu allows you to choose 3 x Main platter dishes and 3 x side platters. The platters are placed on tables for guests to share platters. The dishes are designed to be shared and Banquet Style is maintained for functions and events in large locations creating a convivial atmosphere. A great way for guests to share and enjoy food. This is faster service than the set menu option and is presented beautifully on large white platters and is not plated individually for each guest.

## Set Menu Sit down

This is individually served alternate choices consisting of entree, main and dessert or entree , main or main and dessert depending on your preference.

**Venues** that we cater at are Douglas on the River [www.douglasonriver.com.au](http://www.douglasonriver.com.au) , Hearn's Beach house [www.hearnsbeachhouse.com](http://www.hearnsbeachhouse.com) , The Lighthouse Studio, formerly known as the Warrnambool Entertainment Centre and in marquees or a venue of your choice.
